

# PREPARING NEVADA FOR PHASE 2 SUCCESS

## Protect

### Goal

While maintaining adequate PPE levels for hospitals, nursing care facilities, first responders and essential government services, establish a two-month stockpile of PPE at peak COVID-19 usage for future outbreaks or waves of COVID-19 or other novel diseases.

### Strategies

Resupply the pre-COVID-19 state stockpile.

Surge purchase 60 days of average peak PPE daily rates for hospitals and communities as a strategic stockpile.

Provide at least a 30-day supply of masks in all public-facing State of Nevada offices.

Support supply chain stabilization for ongoing purchases

### Lead Agencies

Nevada National Guard

Nevada Division of  
Emergency Management

## Identify

### Goal

Ensure adequate specimen collection sites and maximize public and commercial laboratory capacity.

### Strategies

Develop a surge supply of collection kits and testing supplies.

Perform COVID-19 testing of 2% of Nevada's population each month for at least a year.

Ongoing development of a robust and sustainable testing system statewide utilizing community-based testing events and testing through employers and private health care systems.

Easy identification of testing sites through [nvhealthresponse.nv.gov](https://nvhealthresponse.nv.gov)

### Lead Agencies

Nevada State Public Health Laboratory

Southern Nevada Public Health Laboratory

## Intervene

### Goal

Ensure that, through public and private partnerships, new cases of COVID-19 are identified quickly and timely case investigation and contact tracing occur statewide.

### Strategies

Implement a digital contact tracing solution and utilize other technology to increase timeliness and efficiency of disease investigation.

Identify and interview new cases of COVID-19 within 24-hours of laboratory confirmation.

Develop a robust network of contact tracers that can surge to address increased cases and contacts and decrease to preserve resources.

### Lead Agencies

Nevada Department of Health and Human Services

District and County Public Health Programs

Nevada System of Higher Education
