

# Roadmap to Recovery for Nevada

## Bars

### MANDATORY AS OF 7/10/2020:

- In counties determined to have [Elevated Disease Transmission](#), bars, pubs, taverns, breweries, distilleries, and wineries that don't serve food must close.
- In counties determined to have [Elevated Disease Transmission](#), bars, pubs, taverns, breweries, distilleries, and wineries that do serve food must close bar tops and bar areas and limit table seating to parties of 6 or fewer.
- In all open facilities, face coverings are required except for when you are actively eating, drinking, or smoking or under other exemptions established by [Directive 024](#).
- If you have a medical condition, you are strongly encouraged to wear a face shield.

### Mandatory\*

### Recommended Best Practices\*

## General

- Only operate at 50% capacity. Capacity limited to number of seats within the establishment that are spaced 6 feet apart. Table service required. These requirements apply to all outdoor seating areas as well.
- All standing and open congregate areas in bars that are not necessary for the preparation and service of food or beverages (including but not limited to billiards, card playing, pinball games, video games, arcade games, dancing, and standing) shall be closed.
- Require employees to stay home if symptomatic and conduct daily symptom assessments.\*\*
- Provide PPE for staff.
- Require frequent and thorough hand washing, including providing workers, customers, and worksite visitors with a place to wash their hands. If soap and running water are not immediately available, provide alcohol-based hand sanitizer.
- Customers waiting to be seated must wait outside and must practice social distancing from people not in their household.
- Daily deep disinfection of high contact surfaces (e.g. door handles, light switches, seats, railings, cabinetry handles, appliance handles, toilets, countertops, phones, tables, etc.)

- Provide hand sanitizer stations.
- Post informational signs regarding social distancing, facial coverings, and what to do if symptomatic.
- Stagger or limit arrivals of employees and guests.

## Confirmed Cases

- Immediately isolate and seek medical care for any individual who develops symptoms while at work and follow CDC guidelines.
- Contact the local health district about suspected cases or exposures, and employers should maintain the confidentiality of employee health information.
- Shutdown any facility for deep cleaning and disinfection, if possible.
- Use disinfectants outlined on [EPA List N](#).

- Work with local health department to identify potentially infected or exposed individuals to help facilitate effective contact tracing/notifications.
- Once testing is readily available, test all suspected infections or exposures.
- Following testing, contact local health department to initiate appropriate care and tracing.

\*\*Daily symptom assessments should include monitoring for fever, cough, and trouble breathing.

\*These recommendations were compiled by the LEAP based on guidance from the CDC, the U.S. Food and Drug Administration (FDA), [Nevada OSHA](#), and other relevant agencies for the industry and public health officials, including state licensing boards. The information provided is only intended as general information to the public. Following these guidelines does not constitute, and is not a substitute for, compliance with all laws and regulations applicable at any particular time. Individuals and businesses are responsible to ensure that they comply with all laws and regulations that apply to them, including, but not limited to, federal and state health and safety requirements. Additionally, compliance with these regulations does not ensure against the spread of infections from COVID-19 or any other cause.
