  - Nevada Interscholastic Activities Association Re-Opening Guidance

Help slow the spread Nevada

- Wear face coverings when you leave the house
- Avoid touching your mouth, nose and eyes, sneeze in your sleeve
- Wash your hands frequently
- Stay at home if you can
- Social distancing (maintain 6ft. distance)
- Limit public gatherings (50 people / 50% capacity)
- Quarantine if sick
- Protect vulnerable people
The Division of Industrial Relations (DIR) Occupational Safety and Health Administration (OSHA) has begun conducting follow up visits to business establishments that were previously found to be in noncompliance with the face covering requirement, social distancing and other measures to protect the safety and health of Nevada’s workforce. During initial field observations by officials, businesses that were not following the directive were provided a notice requesting voluntary compliance.

Division of Industrial Relations officials also conducted 46 initial observations on Monday with a focus on aquatic facilities, restaurants and gyms. Overall compliance for July 13 was 87 percent statewide, 90 percent in southern Nevada, and 85 percent in northern Nevada. Findings of these initial visits include:

- Gyms, 18 observations: 83% compliance
- Restaurants, 12 observations: 92% compliance
- Casino/hotel pools, 5 observations: 100% compliance
- Other pools, 4 observations: 75% compliance
- Water park, 1 observation: 100% compliance
- Automobile sales/service, 1 observation: not in compliance
- Other establishments, 5 observations: 100% compliance

Since the initial observations began, 1,797 businesses have been surveyed with a cumulative statewide compliance rate of 80 percent, 86 percent compliance in northern Nevada and 74 percent compliance in southern Nevada. Cumulative statewide compliance over the period has moved between a low of 77 percent and high of 85 percent.

In addition to the field observation process, Nevada OSHA continue to respond to complaints and referrals regarding face coverings, social distancing, cleaning and disinfection, and other areas of concern related to COVID-19 received by their offices. Nearly 1,300 complaints have been received since mid-March. The majority of these complaints have been resolved through an employer inquiry and response process. In instances where the inquiry process does not provide a satisfactory response or resolution of the complaint, an investigation is opened. A notice of citation and penalty is issued to the business if a violation is found as a result of the investigation.

Since mid-March, Nevada OSHA has issued 98 citations resulting from investigations into COVID-19 related workplace safety complaints received by their offices. Of those, 44 citations have been issued to businesses located in Reno with an average penalty amount of $4,390. Fifty-four citations have been issued to businesses located in Las Vegas with an average penalty amount of $5,880.

Asian Nails: Nevadans need to continue to help flatten the curve of COVID-19. Thanks to Asian Nails in Carson City, NV for understanding the severity of this public health care crisis and for taking precautionary measures, like making a face covering a part of everyday wear.

Viticus Group: Businesses like Viticus Group are helping to flatten the curve of COVID-19 and keeping Nevadans safe. Thank you Viticus Group!

Please send nominations with a photo and brief explanation to BattleBornBizNV@gmail.com.
COVID-19 Testing in Nevada

Nevada health officials are working hard to ensure that anyone who needs a test can get one. It’s the only way we’ll know where the virus is and then arrange resources to slow the spread.

COVID-19 data and test results that include people who don’t show symptoms (“asymptomatic”) can provide a more accurate understanding of how the virus is spreading. Identifying asymptomatic cases will provide a better understanding of the virus’s impacts on the community. Expanding testing plays a major part in influencing the state’s continuous adjustment of prevention and control measures. Additional testing can also lead to a larger number of Nevadans being made aware of their conditions, knowledge that could contribute to focused social distancing and further slowing community transmissions.

The testing location information below is provided and maintained by Castlight: COVID-19 Resource Center. (Testing locations are not endorsed or vetted by the Nevada Department of Health and Human Services.) Testing sites can be searched by specific location or by county.

Individuals who need help accessing this content are encouraged to call Nevada 2-1-1 for more information. While testing criteria for coronavirus disease have been expanded in Nevada to include individuals with and without symptoms, each testing site has its own criteria, which is indicated in the results below. Please call the testing site or your health care provider before you go for testing. Report incorrect information about the testing location details provided here.

Nevada Medicaid now covers COVID-19 testing and testing related services for most uninsured Nevadans, available under the Families First Coronavirus Relief Act (FFCRA).
Contact tracing is used by health departments to prevent the spread of infectious disease. The process begins at the point one of our health departments receives a positive lab report. Contact tracing aims to identify and alert people who have come into contact with a person infected with coronavirus.

**Contact tracing involves:**

- Interviewing people with COVID-19 to identify everyone with whom they had close contact during the time they may have been infectious.
- Contact information is obtained for each case (discuss initial symptoms, when they were most infectious, what they did on those days, who they interacted with for at least 15 minutes within 6 feet of each other).
- Follow-up with identified contacts and advocate they follow CDC health guidance.
- Notifying contacts of their potential exposure.
- Referring contacts for testing.
- Connecting contacts with services they might need during the self-quarantine period.
- Monitor smartphone usage to determine whether somebody has been in contact with an infected person.

To prevent the further spread of disease, COVID-19 contacts are encouraged to stay home and maintain social distance (at least 6 feet) from others until 14 days after their last exposure to a person with COVID-19. Contacts should monitor themselves by checking their temperature twice daily and watching for symptoms of COVID-19.

**I RECOVERED FROM COVID-19**

Jon had a mild case, but he credits his quick recovery to an active lifestyle. He got plenty of rest, but stayed active, did breathing exercises and stretching during his quarantine.

Wearing a face covering protects others.

Who do you wear your face covering for?
Parents, Kids, Friends, Co-workers

➢ Wear a face covering that covers your nose and mouth to help protect others in case you’re infected with COVID-19 but don’t have symptoms.
➢ Wear a face covering in public settings when around people who don’t live in your household, especially when it may be difficult for you to stay six feet apart.
➢ Wear a face covering correctly for maximum protection.
➢ Don’t put the face covering around your neck or up on your forehead.
➢ Don’t touch the face covering, and, if you do, wash your hands or use hand sanitizer to disinfect.

When and Where are you required to wear a face covering?

Public spaces:
➢ Inside of, standing in line, any indoor space.
➢ While outside in a public space when 6 ft. of social distancing isn’t possible.
➢ Public or private transportation that others HAVE or WILL use.
➢ At work and when interacting in-person with members of the public.
➢ In any space where food is prepared.
➢ In any room or enclosed area where other people are present.
Ignore offers for home test kits and vaccinations. Scammers are selling products to treat or prevent COVID without proof they work.

Hang up on robocalls. Scammers use illegal sales call to get your money and your personal information.

Mortgage Fraud
Scams to harm homeowners, mortgage borrowers, and renters through housing scams, relief scams, and mortgage fraud.

Look for phishing emails & text messages. Don’t click on links in emails or texts you didn’t expect.

Research before you donate.
Don’t rush you into making a donation. Get tips on donating at Charity Scams.

Protect your personal information and your wallet.
Scams exploiting economic impact payments, loans, fake Coronavirus vaccines, unproven cures, and bogus at-home testing kits.

Contact Tracing.
Know the process, who contacts you, what questions will/won’t be asked, and what information is needed.

Stay Informed.
Go to ftc.gov/coronavirus for the latest information on scams.
File a complaint at: Nevada Attorney General Consumer Complaints
The State of Nevada was awarded $654,640 for the Crisis Counseling Immediate Services Program through FEMA and will use the funding to place crisis counselors in community programs.

➢ The Department of Health and Human Services (DHHS) will work in partnerships with local health departments and human service agencies, Boys and Girls Clubs, and Nevada COVID-19 Aging Network (Nevada CAN) to ensure Nevadan’s have access to prevention and early intervention services.

➢ Through this grant from the FEMA, Nevada will be deploying 35 crisis counselors statewide to support Nevadans coping with the effects of COVID-19. The program will focus on a population health approach that encourages healthy coping and active management of stressors, building resiliency and fostering compassion.

### Coping and Managing Mental Health
Resources to deal with stress, fear, anxiety and other feelings during COVID-19 response

1. **Crisis Support Services of Nevada**: Call 1-800-273-8255; text CARE to 839863 for 24/7/365 crisis services.
2. **Crisis Text Line**: Text HOME to 741741 from anywhere in the U.S., for 24/7/365 crisis services.
3. **Disaster Distress Hotline**: Call 1-800-985-5990 or text TalkWithUs to 66746. The helpline is available 24/7/365 and is dedicated to providing immediate crisis counseling for people who are experiencing emotional distress related to any natural or human-caused disaster. People with deafness or hearing loss can use their preferred relay service to call 1-800-985-5990.
4. **National Suicide Prevention Lifeline**: If you feel you or someone you know may need emotional support, please visit the Lifeline’s website at suicidepreventionlifeline.org for helpful resources or call 1-800-273-TALK (8255). The Lifeline is free, confidential, and available to everyone in the U.S. You do not have to be suicidal to call the Lifeline.
5. **Warmline for Health Care Workers**: Call 1-833-434-0385 This line serves as a confidential mental health resource for health care professionals to seek support before they have reached a crisis point. Monday - Friday from 8 a.m. to 8 p.m.
6. **SafeVoice**: Call 1-833-216-SAFE (7233) This program provides students a safe place to submit tips concerning their own safety or that of others and is available 24/7/365. Tips always stay anonymous.
The CARES Act. - The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was signed into law by President Trump on Friday, March 27, 2020. DETR has received guidance from the Department of Labor and continues to work on the management of the programs.

- **Pandemic Unemployment Assistance (PUA):** Unemployment support for otherwise ineligible workers, including self-employed.
  Status: As of May 16, 2020. The Division has implemented the PUA program.

- **Pandemic Emergency Unemployment Compensation (PEUC):** 13 additional weeks of benefits for unemployment insurance exhaustees.
  Status: As of May 10, 2020. The Division has implemented the PEUC program.

- **Federal Pandemic Unemployment Compensation (FPUC):** An additional $600 added to each week of unemployment insurance or Pandemic Unemployment Assistance.
  Status: As of April 12, 2020. The Division has started paying the additional $600 Federal Pandemic Unemployment Compensation (FPUC) payments to eligible claimants for the period starting with the week ending April 4, 2020, and payable thru the week ending July 25, 2020.

Call DETR phone lines at (775) 684-0350, (702) 486-0350, or (888) 890-8211 for claims information, related questions, and telephone filing.

PUA claims information, related questions, and telephone filing. 800-603-9681
