Subject: Comments for COVID task force

Govenor Sisolak,

Your decisions and actions in dealing with this virus have been deplorable. You have destroyed Nevada's economy and are responsible for the financial and psychological ruin of thousands of Nevada families! COVID 19 has been PROVEN to have a death rate of far less than 1% and that a good majority of people who contract it make a full recovery in a week to 10 days. It has also been proven that masks DO NOT WORK. The bottom line is that COVID is NOT the dangerous and deadly virus you and the media claim it to be. To be clear, YOU are responsible for this failed economy and suffering, NOT COVID. Quit being a puppet on a political string and fully reopen the state without any of your nonsense mandates and give people a chance to repair their broken lives and for the economy to recover.

Sean
