Stop the Covid fraud!

Break ranks before you each of you find yourself in prison for committing the greatest crime against humanity.

This is a global totalitarian movement.

Cases are meaningless propaganda.

Death rate is less than flu.

There is no emergency.

End the mask mandates, social distancing, and tracing and let us live our lives.

Our human rights are being violated.

WE have a right to make our own health choices and decide which risks are appropriate for our lives.

Some of us wish to live a HUMAN life, a natural life, using our natural God-given immunity as protection, not the Government.

I have a right to religious freedom and I do not believe in, nor should I be FORCED to participant in this new delusional religious CULT, of which one of the symbols is the mask.

These sacrifices we have made in our lives due to your over-reach of Government are killing us and they are neither necessary, nor small & disease is not being prevented by instituting them.

Thank you.
