COVID-19 Mitigation and Management Task Force meeting is available

CARSON CITY, NV — The Nevada COVID-19 Mitigation and Management Task Force met today and discussed updates from their respective agencies and departments.

All counties in Nevada, with the exception of Storey and White Pine counties, were flagged for elevated disease transmission this week. All flagged counties met the criteria of a high case rate per 100,000 and had a high test positivity rate. Lincoln and Storey counties were the only counties flagged for a low average number of tests per day per 100,000.

The Task Force's meeting was focused on ongoing informational updates and briefings rather than individual county plans due to the current pause implemented by the Governor and recently extended another 30 days.

Updates were provided by Department of Business and Industry, Governor's Finance Office, Nevada Department of Education, Gaming Control Board, Nevada Association of Counties, Nevada League of Cities, and Nevada Hospital Association.

The Task Force meetings are always streamed live on [YouTube and replays are available](#). More information about the task force can be found online on the [Nevada Health Response page](#).
