COVID-19 Mitigation and Management Task Force meeting is available

CARSON CITY, NV — The Nevada COVID-19 Mitigation and Management Task Force met today and discussed updates from their respective agencies and departments.

All counties in Nevada, with the exception of Storey and White Pine counties, were flagged for elevated disease transmission and test positivity. All counties, with the exception of Storey County, met the criteria of a high case rate per 100,000. Eureka and Storey counties were the only counties flagged for a low number of daily tests completed per 100,000.

The State Biostatistician and the Nevada Hospital Association both stated, the majority of counties are seeing a reduction in daily cases and hospitalizations.

Nevada's local health authorities each gave an updated on their vaccination efforts. More information on COVID-19 vaccination efforts can be found on NVCOVIDFighter.org and on each health authorities' websites.

- [Southern Nevada Health District](#)
- [Washoe County Health District](#)

The Task Force's meeting was focused on ongoing informational updates and briefings rather than individual county plans due to the current pause implemented by the Governor.

The meetings are always streamed live on [YouTube and the replay is available](#). More information about the task force can be found online on the [Nevada Health Response page](#).
