COVID-19 Mitigation and Management Task Force continues work with counties on plans to transition to local authority

CARSON CITY, NV — Today, the Nevada COVID-19 Mitigation and Management Task Force met with counties to hear presentations of their plans for transition to local authority on May 1.

Plans for the transition to local authority as of May 1 were submitted for further discussion and consideration by the task force. Counties that presented today included Churchill, Clark, Douglas, Elko, Eureka, Humboldt, Nye and Washoe.

A recording of this and previous COVID-19 Mitigation and Management Task Force meetings can be found on the [NV Health Response YouTube channel](#).

As of today, 16 of 17 Nevada counties have completed the planning process and collected necessary endorsements from their local health district, superintendent of the school district, city managers (for cities with a population greater than 100,000) and the Nevada Hospital Association and/or Nevada Rural Hospital Association.

Washoe County will have the opportunity to submit a plan once they have received the necessary endorsements, at which point local authority will transition to the county.

The meetings are always streamed live on YouTube and the replay is available. More information about the task force can be found in the [Nevada Health Response – COVID-19 Task Force page](#).
