

Restore Carson City

Carson City's Transition Plan

Update prepared for Board of Supervisors May 6, 2021

Monitoring

The City will continue to monitor the State's County Tracker for test positivity rates, hospitalizations and other measures to ensure the City stays within acceptable ranges and will implement or adjust requirements as needed. In addition, testing and contact tracing efforts will continue. Long term facilities and group homes are performing their own testing; however, Carson City Health and Human Services (CCHHS) will continue to investigate positive cases. Carson City Jail and Juvenile Detention have protocols in place and CCHHS will continue to assist, if needed, and will investigate positive cases. CCHHS will continue to partner with Friends in Service Helping (FISH) to assist any homeless individuals who test positive to find a place to quarantine. CCHHS will also continue to work closely with Carson City School District and private schools regarding positive cases and will provide assistance as needed.

The City has procured a surplus of PPE and sanitation supplies both for City Departments and local businesses free of charge. The City will coordinate with the Nevada Division of Emergency Management to obtain additional supplies, as needed, from their surplus.

Mitigation Measures

Carson City is prepared to fully re-open without occupancy restrictions for all businesses, public gatherings, events and activities that are not subject to differing requirements imposed by a separate governing authority. The City has prepared an occupancy and requirements matrix for industries and activities. In addition, all businesses and events will be required by the State to follow applicable directives issued by the Governor and those industries governed by State Agencies must operate in accordance with the requirements of the appropriate Board.

Vaccination efforts will continue to be a community priority. As vaccines are now readily available including walk-in opportunities, occupancy for activities is being lifted. The percentage of vaccinations initiated (1st dose) for Carson City residents over the age of 16 is currently over 52% and 40% have been reported as complete.

Carson City has and will continue to follow the Governor's directives within City operations. Meetings may be held both virtually and in person.

Enforcement Measures

Carson City has established a COVID Education & Compliance Program and hired a COVID Education & Compliance Coordinator. As Carson City re-opens, the COVID Education & Compliance Coordinator will continue to educate businesses on applicable directives issued by the Governor, work in consultation with OSHA and the Nevada Department of Business and Industry, and promote availability of PPE and sanitation supplies.

Carson City has also established a COVID Compliance Task Force in order to create a comprehensive and coordinated approach between all compliance mechanisms. The Task Force will continue to meet as needed to discuss efforts to further engage businesses in compliance efforts. The Task Force is comprised of the following individuals:

- Mayor Lori Bagwell
- City Manager Nancy Paulson
- Deputy City Manager Stephanie Hicks
- Health and Human Services Director Nicki Aaker
- CCHHS Epidemiologist Dustin Booth
- Fire Chief/Emergency Manager Sean Slamon
- Deputy Emergency Manager Jason Danen
- Undersheriff Jerome Tushbant
- Community Development Director Hope Sullivan
- Carson City Chamber of Commerce Director Ronni Hannaman
- Nevada Builders Alliance CEO Aaron West
- Western Nevada College President Vincent Solis
- Carson City COVID Education & Compliance Coordinator Robert Rikalo

Public Information

The Carson City Health and Human Services (CCHHS) Public Information Officer (PIO) and the City Digital Media Coordinator will continue to create community education materials regarding public health measures, testing and vaccines, monitor social media and ensure messaging aligns with the Governor's directives and the needs of the community.

Resource Needs

According to the COVID-19 Mitigation Taskforce, the Nevada National Guard, FEMA, and USDA will be available to assist with testing and vaccination events, along with data entry through September 13, 2021. This is a resource that is critical to the City's successful recovery and we appreciate the State's effort to secure these resources.

Good Morning-

On May 6th the Board of Supervisors approved the attached updated Transition Plan that reflects changes based on recent directives (044 & 045) by the Governor. The plan removes social distancing and occupancy restrictions and allows businesses to determine which recommended social distancing and hygiene requirements will meet their needs and those of the community. This decision was not made lightly and is based on Carson City having a vaccination rate of over 53%, the increased availability of vaccines to include walk in opportunities at City events and many local pharmacies, reduction in test positivity rates and the City's low number of hospitalizations. The City will continue to follow the Governors mask requirements and any other directives that remain in place. Carson City is hoping to receive your endorsement of its updated transition plan. Thank you

so much for your consideration.

Nancy

Carson City, NV. 89701

Dear Ms. Paulson,

The Nevada Hospital Association hereby provides the required endorsement for the updated "Restore Carson City" transition plan dated May 6, 2021. The metered approach that Carson City has been taking toward opening is refreshing, and the dedication and determination toward the vaccination mission are recognized and appreciated.

If I can be of any assistance as we move forward toward normalcy, please do not hesitate to reach out.

Sincerely,
